No-Cost, Unconditional Food Support

At the Ashcroft Food Bank, our mission is to provide essential food support to individuals and families in need, with dignity and respect. In line with this mission, we are committed to ensuring that our core food-support services are provided:

1. Free of Charge

All clients accessing our food support services will receive assistance at no financial cost. We do not require any form of payment, whether direct or indirect, in exchange for receiving food support.

2. No Conditions Attached

Our food support is available to all eligible clients without any conditions or obligations. This means clients are not required to:

- Participate in volunteer work,
- Make donations, or
- Engage in any religious or faith-based activities.

We believe that food is a basic human need and should be accessible to everyone, free from barriers or conditions. Our goal is to serve with compassion, inclusivity, and respect for all.
